

## TruLink® Wireless USB to VGA and Audio Kit

Wirelessly transmit video and audio to a projector or TV up to 30 feet!

The TruLink USB to VGA and Audio Kit includes everything you need to wirelessly stream video and audio from your computer to a remote monitor, projector or television. Utilizing Ultra-Wideband technology, the USB to VGA and Audio Kit enables secure, in-room wireless connectivity at distances up to 30 feet between the computer, the display device, and the audio device. This kit provides an effective wireless multimedia solution at home, in a classroom, or in a conference room.

### Applications

Ideal for classrooms, conference rooms, or home uses; especially in situations where the audio and video are in separate locations. Stream video and audio from the PC to a projector, monitor, or television. Send a PC's video and sound from a music library, internet video clip, or DVD to an external device.
