

## TruLink 2-Port UXGA Monitor Splitter

**Compact USB powered splitter cable extends\* signal up to 210 feet**

The TruLink 2-port VGA splitter is an excellent solution for distributing video across two displays. Create a simple digital signage application or use in a conference room or classroom to broadcast computer content to multiple displays. With integrated video signal enhancement, displays can be placed up to 210 feet from the source without sacrificing video quality. This provides complete flexibility while ensuring the highest quality resolution. Multiple splitters can be added to expand the number of displays and distance.

This splitter's compact cable design makes it easy to use in tight spaces or when traveling. No drivers or additional software are required, making it quick to set up and easy to use. USB power adapter is included to power the splitter from your PC, meaning no power outlets are needed!

### Features:

- Split video output to two monitors
- Extends\* signal length up to 210 feet
- Convenient to power, using a USB connection
- Flexible design allows multiple cables to be connected to add displays or extend length
- Cord splitter design
- Compact size (measures 1<sup>3</sup>/<sub>4</sub>" (W) x 2<sup>5</sup>/<sub>8</sub>" (L) x 7<sup>1</sup>/<sub>8</sub>" (H))

### Item#:
